Portland, 26 September 2023

Vestas secures 136 MW EnVentus order in Canada

Vestas has received a 136 MW order to power an undisclosed wind project owned in Canada. The order consists of 22 V162-6.2 MW wind turbines.

The order includes supply, delivery, and commissioning of the turbines, as well as a multi-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

Vestas' EnVentus turbines offer a wide range of standard hub heights and modes of operation that can be combined with an extensive list of technology options to create customised solutions to suit the needs of each unique project.

Turbine delivery begins in the third quarter of 2024 with commissioning scheduled for the fourth quarter of 2024.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 169 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 149 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
