

News release from Vestas-American Wind Technology

Portland, 22 December 2023

Vestas secures 603 MW order for V163-4.5 MW turbine in the USA

Vestas has received a 603 MW order to power an undisclosed wind project in the USA. The order consists of 134 V163-4.5 MW turbines, Vestas' newest high-capacity wind turbine.

The order includes supply, delivery, and commissioning of the turbines, as well as a 10-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

Turbine delivery begins in the fourth quarter of 2025 with commissioning scheduled in the second quarter of 2026.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 173 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 151 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
